👛 EXPERIENCE

Erudit, Spain (Remote) — Backend Software Engineer

June 2022 - March 2023

Utilized Python, Pytest, AWS Lambda, API Gateway, RDS PostgreSQL, DynamoDB, S3, SQS, SAM, and CDK to develop robust serverless backend systems.

Scrimmage, USA (Remote) — Backend Software Engineer

June 2021 - May 2022

Worked with Python, Django, Django Rest Framework, Flask, Redis, RDS Postgres, S3, and Docker to create scalable software solutions.

Estante Mágica, RJ (Remote) — Backend Software Engineer

January 2021 - June 2021

Developed microservices applications using Python, FastAPI, Docker, PostgreSQL, Google Cloud Platform

Votorantim, SP (Hybrid) — Information Technology Analyst

June 2019 - December 2020

Performed data analysis and web scraping/crawling tasks utilizing Python, Django, Pandas, Matplotlib, Numpy, Plotly, Jupyter Notebooks, AWS (EC2, RDS, S3, IAM, DMS), Google Cloud Platform, Linux (Ubuntu, Amazon Linux), PostgreSQL, Scrapy, and Scrapinghub.

🎓 EDUCATION

Universidade de Sorocaba - UNISO, Sorocaba — B.S. in Computer Science

February 2014 - June 2018

Graduation Project: Online Judge and Academic Interaction Channel for Programming Learning Support.

Tools: Python, Django, Atom, GitHub.

Repo: <https://github.com/JuniorGunner/OI>

ETEC Fernando Prestes, Sorocaba — I.T. Technician

August 2012 - December 2013

Programming languages (C++, Java, C#), network, hardware.

💡 SKILLS

Python, Numpy, Pandas, Matplotlib, Plotly, Pytest, Git, REST API's, Django, DRF, Flask, FastAPI, PostgreSQL, Redis, Scrapy, BeautifulSoup, AWS, GCP.

🌐 LANGUAGES

Portuguese BR - Native;

English - [Advanced \(C1\)](#);
